KINGS OF LOW PRICES.

ANOTHER SURGICAL TRIUMPH.  
They sawed off his arms and legs,  
Then sewed them back again;  
Put them fancy frames on him;  
And they deftly extracted his brain.

Was a triumph of surgical skill,  
Such as was never heard of till then;  
Was the subject of lectures before  
Conventions of medical men.

The news of this wonderful thing  
Was herald led and told the world;  
But for the patient there's not much to say,  
Except, of course, that he died.

It is said by some that our Jailer fears his  
prisoners too lavishly—they all hate to leave,  
and take the first opportunity to commit some  
small offense. This is a bad way to run a prison. This  
may be true of a professional house, but it is  
certainly not true of a prison.

LOVING ON THE BRIGHT SIDE.

Chicago News.

Grace—My brother Tom says this war business is likely to make men scarcer than ever at that seashore this winter, and when I asked him—“What do you mean?” he said—“I don't believe it. I've never seen a man at the seashore yet that would be likely to go to war under any circumstances.

LOVE MAKES COWARD.

The Star.

Willie—Ma, I'm not afraid of policemen any longer.

Mrs. Williams—You're not, Willie?

Willie—No; there was a policeman in the kitchen who cook last night, and when I walked in on them, I could see that he was frightened half to death.

THE TIP TOPPER.

Springfield Republican.

No one is criticizing General Joe Wheeler. He seems to do everything exactly as it should be done. The impression of alertness and energy that he has given to the campaign in Montana, together with his fine record in Cuba, indicates that he would come out on top had the war lasted long enough. Moreover, he makes red tape yield to human brotherhood.

BOX. SAM. J. FROH opens the campaign in Boyd county this week, speaking at Mawty and Rush on the 5th, Princess and Catherstburg on the 6th, and at Poland on the 7th.

AN order of the War Department directed that sick and wounded soldiers granted furloughs are entitled to \$10 per day for each day of treatment when traveling to and from their homes to and from of post of duty. What would have the boys of '61-'65 thought of such generous treatment as this? They had to "pay their own way and find themselves" on the munificent sum of \$11 a month at the beginning, which was afterward increased to \$13 a month.

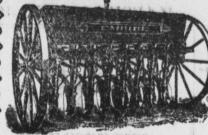

ACCORDING to the official records from Spanish sources, out of every 1,000 soldiers sent to Cuba only 10 were killed in battle or died from wounds, while 66 died of yellow fever, 290 of cholera, 1,000 of measles, 143 succumbed to typhus, 100 to dengue, 100 to malaria, 100 to Cuban hospitals. In other words, out of every 1,000 Spanish soldiers in Cuba 10 were killed in battle, while 511 were placed hors de combat by disease; and yet no one has heard of an "investigation" being demanded by the "yellow dog" journals of Spain.

Free Medical Advice

You need a doctor many times when you don't call one. You suffer pain in fifty forms and yet won't call the doctor, because you hope that the pain will go away without treatment. You know by experience, that that first visit of the doctor is generally followed by many others, with the inevitable consequence of a big bill for services. You don't know what to do for yourself or what to take.

But suppose that you could get free, absolutely free, the advice of one of the most

Eminent Physicians

In the United States? You can. The physician is right here. He has an office in the building, he has a staff of correspondents to assist him, and anyone and everyone, who needs medical advice, can call on him. If it's baby's health or mother's or the health of any member of the family you may write about it, sure of a careful reading of your letter, sure of a conscientious diagnosis of your case.

Sure of a Cure
